**Committed to Providing
Quality Services for the World**

ENTERPRISE PROFILE

Henan Yicheng was founded in 2000, which has a deep rooted history and experience in the field of concrete batching plant manufacturing. Yicheng is an international, diversified, comprehensive construction equipment company committed to providing quality services globally. Offers a wide product range, including HZS concrete batching plant, JS concrete mixer, YHZS mobile concrete batching plant, WBZ stabilized soil mixing plant, JZC concrete mixer truck, accessories.

We aim to contribute to the realization of social and environmental sustainability all over the world through the manufacturing and selling of concrete batching plant. We also set our sights on improving buyer's stable profit by realizing quality permanent growth.

For over 20 years, it has evolved from a traditional management-style privately-owned enterprise into a modern international commercial force with the most diverse and comprehensive lines of business and strongest R&D capabilities in concrete batching plant industry.

ENTERPRISE ADVANTAGES

Market Share

Our sales volume up to **top 5** in China since 2015.

Experienced Staff

Technician, installation team, the after-sales team who target the best with **great experience**.

Factory

We specialize in construction equipment own more than **33,000 square** meters of workshop.

Technological Production

Yicheng have the most advanced technological manufacturing facilities, added **12** different fully automated **robotic welding** stations into its production lines.

Quality Certificates

Verified by **ISO, CE** quality inspect, the quality and service have a leading position in the industry.

Pre-sales Service

The drawing will be ready within 6 hours.
The production takes about **7~15 days**.

Customer Oriented After Sales Service

We provide the fastest and efficient service to customer, **24*7** hours after-sales service hotline.

Sufficient Export Cases

Exported to Russia, Uzbekistan, Switzerland, Malaysia, the Philippines, Cambodia, South African, Peru etc.

Concrete Mixer

The JS series concrete mixer is a double-horizontal-shaft forced mixer, which has the dual advantages of a single machine independent operation and a simple concrete mixing plant with the PLD series batching machine. It can also provide a supporting main machine for the mixing plant. It can mix dry hard concrete, plastic concrete, fluid concrete, light aggregate concrete and various mortars. It is a high-efficiency machine with wide range of application.

Model	JS500	JS750	JS1000	JS1500	JS2000	JS3000
Discharging volume	500L	750L	1000L	1500L	2000L	3000L
Charging volume	800L	1200L	1600L	2400L	3200L	4800L
Mixer motor	18.5kW	30kW	2X18.5kW	2X30kW	2X37kW	2X55kW

Installation

Our engineer will be send to site for guidance on installation, debugging and operation training.

WBZ Stabilized Soil Mixing Station

WBZ series stabilized soil mixing station is a complete set of special equipment for continuous mixing of pavement base materials. It can use quicklime, hydrated lime (10-15% water content), soil, sand, fly ash, cement as raw materials to produce cement stabilized gravel, lime-soil stabilized base material, compressible concrete and other base materials. It produces base materials with accurate proportions and uniform mixing. It is suitable for high-grade construction mixing of base materials for roads, airports, docks.

Item	YWBZ300	WBZ300	WBZ500	WBZ600	WBZ700	WBZ800
Rated productivity	300t/h	300t/h	500t/h	600t/h	700t/h	800t/h
Aggregate size	≤60mm	≤60mm	≤60mm	≤80mm	≤80mm	≤80mm
Aggregate bin capacity	2*5m ³	4*6m ³	4*12m ³	4*12m ³	4*12m ³	4*12m ³
Mixing material bin capacity	2	6	10	10	10	15
Aggregate measuring accuracy	±1%~±2%	±1%~±2%	±1%~±2%	±1%~±2%	±1%~±2%	±1%~±2%
Water measuring accuracy	< ±1%	< ±1%	< ±1%	< ±1%	< ±1%	< ±1%
Mixing rotation rate	65r/min	65r/min	65r/min	65r/min	65r/min	65r/min
Total power	65kW	98.7kW	155.5kW	170kW	202kW	237.1kW

YHZS Mobile Concrete Batching Plant

Mobile concrete batching plant is a movable concrete production equipment that can be built and put into production on job site. It is the best choice for produce ready-mixed concrete in short-term projects. Mobile concrete batching plant adopts compact design, it can be transported by container, or trailer. Due to its small footprint and quick installation, the mobile concrete batching plant can adapt to various rough construction sites. It is widely used in road projects, port construction, channel construction, etc.

Item	YHZS25	YHZS35	YHZS50	YHZS90
Theoretical capacity	25m³/h	35m³/h	50m³/h	90m³/h

Concrete Pump

Mixer Truck - 6m³ / 8m³ / 10m³

Concrete Mixer Truck (cement mixer truck, concrete agitator truck) is a device that homogeneously combines concrete, aggregate such as sand or gravel, and water to form concrete – a powered device that mixes concrete with water and aggregate, such as sand or pea gravel, to make concrete. When the truck moved, the mixer tank work to mix the concrete.
